An Initiative Made for Changemakers

The Wealth Inequality Initiative (WII) is a global collaborative platform to awaken interest in wealth inequality, circulate knowledge, mobilise stakeholders and drive action towards more equitable societies.

At www.wealth-inequality.net we bring together experts, key players

and actors in the field to share their expertise, showcase their projects and bring examples of what works and what does not work against wealth inequality. Through a multi-stakeholder approach, we aspire to win broad support for this quest, raise awareness on the issue of inequality, and drive action to reduce it.

Together let's embrace the role of changemakers!

ONLINE EVENT SERIES
Empowering communities
across Africa through
sustainable initiatives

Dear reader,

The Julius Baer Foundation is committed to reducing wealth inequality. For nearly 60 years, we have been dedicated to making meaningful and impactful contributions to society. Today, our work focuses on reducing wealth inequality by convening leading thinkers and actors on the topic and supporting projects around the globe for a world of equal opportunities.

We are pleased to announce a series of virtual events that will focus on **the wealth inequality challenge in Africa**.

Our partners from **Malawi, Tanzania and South Africa** will share with us their innovative approaches to 'Empowering communities across Africa through sustainable initiatives'.

We believe that constructive collaboration is key to reducing wealth inequality in Africa. Working together with our partners, we can identify new and innovative ways to create sustainable change. We hope this series of events will inspire you to act and join us in our mission to create a more equitable future for all.

Follow us for more details of our events and be part of our community.
